HARRIS' 1942 SPECIAL OFFER TO FLOWER PLANT GROWERS

Our "Variety Mixtures" are all very carefully made from fresh seed, the colors blended and proportioned according to actual germination, and the seed thoroughly mixed.

In spite of all this care, it is impossible for you to guarantee to your customers exactly what colors he will get. Some colors will usually make a little more vigorous seedling growth than others, and they are sure to be favored in transplanting. This upsets the color-balance of your mixture, making some "dozens" with only two or three colors.

A NEW PLAN FOR YOU

In order to overcome this situation, we are offering you some "Special Assortments" of separate colors at "Mixture" prices. You can sow the colors separately and mix the seedlings when transplanting, or mix the seed yourself in any color proportion you wish for your own trade. By actual cost records we find it doesn't increase the cost of transplanting.

Note: As these Assortments are packaged ahead, there can be no changes made.

Six Special Assortments

AMERICAN BRANCHING ASTERS

CW161—One ounce (1 Oz.) each of WHITE, ROSE, AZURE, FLESH PINK and PURPLE, in separate packets for only \$6.10.

CW162—One-half ounce ($\frac{1}{2}$ Oz.) each of the same five colors in separate packets for only \$3.25.

CW851—One ounce (1 Oz.) each of the six colors in separate packages for only \$4.00.

Harris Grows the Best Petunia Seed for the Most Critical Flower Growers

We actually grew the seed of all the different kinds of Petunias we offer in our catalogue as "Harris-Grown." Each kind is separated by a long distance from any other kind, thus preventing any mixtures from crossing.

To you as a grower of Petunia plants it means a great deal to be *sure* of the germination of the seed and the quality of the plants you sell.

A plant of **GIANT SNOWSTORM** growing in the field. Notice the large, pure white, waved flowers and the low growing plant. **CW3814**. 1 $\frac{1}{2}$ Pkts. 50c; $\frac{1}{4}$ Oz. \$2.00.

"Again I want to compliment you on the high reputation of your seeds. I planted a package of large ruffled Petunias and they came up thick; while I have often planted them from other growers without a single seed germinating."

Mrs. A. C. Waldvogel, Clayton, Mo.

The **ART** is unusually showy in the garden. Grows tall and upright with masses of red and white fringed flowers. **CW3817**. 1000 seeds 80c; $\frac{1}{4}$ Oz. \$1.50.

"I must tell you that last year I had such luck with your seeds that had my customers come back through the summer months and just rave about the beauty of their flowers. The Purple Prince and Giant Snowstorm Petunias have been the most beautiful they have ever been. They did want more this year."

Mrs. J. Reider, Hicksville, N. Y.

Our **PARAMOUNT GIANTS** are the largest ruffled, the lowest growing, and in the best mixture of colors. **CW3802**—1000 seeds \$1.00; $\frac{1}{4}$ Oz. \$2.25; $\frac{1}{16}$ Oz. \$3.75.

CREAM STAR is a new bedding variety—flowers and remaining compact all summer. **CW3844**. 1 $\frac{1}{2}$ Pkts. 35c; $\frac{1}{4}$ Oz. 65c; $\frac{1}{4}$ Oz. \$1.00.

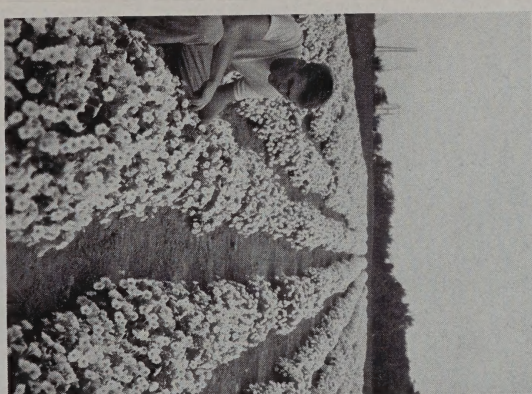

ROYALTY is a new Harris variety that sells fast as it comes into flower in pots, bands or flats. The large velvety blue and white flowers are so very showy. **CW3809**— $\frac{1}{4}$ Oz. 95c; $\frac{1}{4}$ Oz. \$1.50.

"I find Harris' seeds reliable and especially suited to this locality."

F. C. Pair, Lyons, N. Y.

CELESTIAL ROSE growing in the field a long distance from any other kind to prevent crossing. Note the uniformity of flower kind to prevent crossing. **CW3850**—1 $\frac{1}{2}$ Pkts. 25c; $\frac{1}{4}$ Oz. 55c; $\frac{1}{4}$ Oz. 85c.

A field of **SNOWBALL**. It has taken years to get uniform plants and all true pure white. This was a beautiful sight. **CW3821**—1 $\frac{1}{2}$ Pkts. 25c; $\frac{1}{4}$ Oz. 45c; $\frac{1}{4}$ Oz. 75c.

Hand-pollinating our **GIANT RUFFLED SALMON BEAUTY**. The largest and prettiest pink Petunia variety. The largest and prettiest pink Petunia variety must be carefully hand-pollinated and waved Petunias **CW3808**—Salmon Beauty. 1000 seeds 70c; $\frac{1}{4}$ Oz. \$1.35

"I sent for some of your seeds this spring, among them Petunia Royalty and had great success with it. Everyone who saw it was very enthusiastic."

Mrs. E. A. Bick, Niantic, Conn.

"I want to write of the beautiful Paramount Ruffled Giant Petunias I had last year. I never saw anything like them. The coloring was gorgeous; some blooms six inches across."

L. C. Snyder, Chicago, Ill.

Nicotiana Suaveolens

Plant of Harris Extra Fancy Coleus

Hardy Scabiosa, Perfecta

New **HARRIS-GROWN** *Flowers for the Florists*

A NEW NICOTIANA

CW3675—N. Suaveolens, Orange Blossom. For the first time we have seed available of this most excellent garden flower. White tubular flowers constantly in bloom until late fall, and good white flowers are scarce. Your customers will be enthusiastic about it. Pkt. 25c; $\frac{1}{16}$ Oz. \$1.50; $\frac{1}{8}$ Oz. \$2.50.

DWARF SWEET WILLIAM

CW6140—Mixed Colors. The fastest selling new flower for spring plant sales. A perfectly hardy perennial, in clumps only 6 to 8 inches tall, and covered with heads of Sweet William flowers in all bright colors. This is an exceptional strain. Lg. Pkt. 25c; $\frac{1}{4}$ Oz. 90c; Oz. \$3.00.

DAHLIAS FOR CUTTING

CW2605—Vossberg's Hybrids. Single Dahlias are rapidly becoming more popular, both as a commercial cut-flower and for bedding plants. Here is a new strain especially suited for either purpose. Grows 3 to 4 ft. tall, flowers freely with long stems. Single flowers 3 to 4 inches across in a pleasing variety of colors. Easy to grow from March sown seed. Lg. Pkt. 30c; $\frac{1}{8}$ Oz. 75c; $\frac{1}{4}$ Oz. \$1.25.

COLEUS FROM SEED

CW2511—Harris' Extra Fancy Large-Leaved Mixture. It's cheaper and easier to raise the plants from seed sown in March if you have an unusually good strain. This is it. Bright colors, large leaves and late flowering. $\frac{1}{16}$ Oz. \$1.50; $\frac{1}{8}$ Oz. \$5.00.

SCABIOSA FOR CUTTING

CW4663—Perfecta. One of the most profitable hardy perennials for cutting all summer as well as hardy plant sales. An excellent light blue on good stems. Every retail and wholesale grower should maintain a good planting. Lg. Pkt. 30c; $\frac{1}{4}$ Oz. 75c; Oz. \$2.50.

BLUE SALVIA

CW4603—Farinacea, Blue Bedder. There is an increasing demand for plants of this graceful light-blue Salvia. It is also profitable to grow for commercial cutting. This strain is of unusually good vitality. Lg. Pkt. 30c; $\frac{1}{8}$ Oz. 65c; $\frac{1}{4}$ Oz. \$1.00.
